Chad Loeffelman, Plant Manager
415 North Marshall
Sedalia, MO 65301
Phone: 660-827-3433
Fax: 660-827-5979

ABM was started in St. Louis in 1942 by Mr. A.B. Mueller as A.B. Mueller Co. The company was eventually purchased by Paul Jensen and Walt Stoll. The name was changed to ABM Industries, Inc. and was moved to Sedalia in 1975. In October 1993, Al, Kevin and Chris Loeffelman, of Fenton, Missouri purchased ABM and changed the name to ABM Manufacturing, Inc. The Loeffelman brothers also own Production Castings and PC Plating, both located in Fenton, Missouri. ABM is a manufacturer's manufacturer. That is, they produce products used by others, such as parts for carpet tools, refrigerators and electric motors. They are capable of making aluminum die castings, performing close tolerance machining and coating items with various finishes.

Secretarial Service, Resume Service, Word Processing and Full Graphics/Printing.

Duke Manufacturing Company was founded in 1925 by Marsh P. Duke at the age of 44 to produce commercial food service equipment. The original building measured twenty feet by ninety feet and was located at First and Elm Streets in St. Louis, almost the exact site on which the magnificent Gateway Arch now stands. Since then, the steady growth in sales volume has been matched by a building program which today includes two manufacturing facilities which are located in St. Louis and Sedalia, Missouri. The local Sedalia plant was built in 1970 and manufactures many different product lines of food service and food preparation equipment. These product lines include such items as stainless steel tables, salad bar, hot food buffet-style units and convenience store cabinetry and equipment. The commercial food service industry plays a tremendous role in the country's economy and Duke Manufacturing plays an important role in supporting the industry.

from the manufacturer creating lower costs. They offer nature's best premium 100% natural aromatic red cedar shavings which naturally repel insects such as fleas & ticks while serving as an air freshener and pet-area deodorizer. Red cedar is most commonly used for small animals; however, it can also be used on larger animals such as dogs, cats, hogs, and horses. Smithton Industries also offer the best, top quality softwood bedding. Softwood is "veterinarian recommended" for animals with respiratory problems. This low-resin, white softwood mixture offers excellent absorbency. The bedding has a clean, woody fragrance and is ideal for pets, small animals, or caged birds and the Premium Softwood Bedding is available in many colors.

Starline Brass

David Wolfe, Plant Manager
1300 West Henry Street
Sedalia, MO 65301
Phone: 660-827-6640
Fax: 660-827-6650
Link: <http://www.starlinebrass.com>

Starline was founded in 1976, by Robert Hayden. The company began with a single 38 Special cartridge case. Today, Starline manufacturers the finest unprimed custom handgun brass for many of the best ammunition makers in the world, as well as local, state and federal law enforcement agencies. In 1992, Starline relocated its new state-of-the-art facility to Sedalia, Missouri. This location, coupled with a 28,000 sq. ft. building and an environmentally sound waste water treatment plant on site, enables Starline to better meet its customer needs. Only the finest raw materials are used in Starline's manufacturing processes. Combined with a variety of testing procedures and

controls, the quality of the finished product is consistently high and surpasses the expectations of the customer. By combining modern manufacturing techniques, lower overhead and a very efficient distribution network, Starline offers the highest quality product at a very competitive price.
